§13–504.

The purposes of this subtitle are to:

- (1) Create and foster a statewide program that promotes public awareness and increases knowledge about the causes of arthritis, the importance of early diagnosis and appropriate management, effective prevention strategies, and pain prevention and management;
- (2) Enhance understanding of arthritis by disseminating to patients, health professionals, and the public:
 - (i) Educational materials;
 - (ii) Information on research results;
 - (iii) Information on services provided; and
 - (iv) Strategies for prevention and control;
- (3) Establish a solid scientific base of knowledge on the prevention of arthritis and related disability through surveillance, epidemiology, and prevention research;
- (4) Utilize educational and training resources and services developed by organizations with appropriate expertise and knowledge of arthritis and use available technical assistance;
- (5) Evaluate the need for improving the quality and accessibility of existing community-based arthritis services;
- (6) Increase awareness about the prevention, detection, and treatment of arthritis among State and local health officials, providers, professionals, and policy makers;
- (7) Implement and coordinate State and local programs and services to reduce the public health burden of arthritis; and
- (8) Improve the quality of life and contain health care costs for individuals with arthritis and their families.
